Speech Delay and Its Affecting Factors (Case Study in a Child with Initial Aq) Syamsuardi Faculty of Education, State University of Makassar, South

Sulawesi, Indonesia Abstract Any parent wishes an appropriate development for their children One of the parents' great concerns is the

Paralinguistics in speech and language—State-of-the-art ...

functions encoded in speech or in other vocal activities Examples include a slurred voice if the speaker is inebriated, or a loud and high-pitched voice

when a person is angry; further examples follow below Ever since the advent of structuralism (de Saussure, 1916), the study of (speech and)

language has been more or less

English Phonetics — Connected Speech

English Phonetics — Connected Speech In connected speech, the rhythm we hear is a succession of stressed and unstressed syllables A stressed

syllable tends to be marked by greater loudness than unstressed ones, and often by pitch prominence, greater duration, and more clearly defined

vowel quality

What Is the Harm of Hate Speech?

The recent literature on hate speech is much more voluminous than that on any other area of free speech philosophy or law One of the most notable

contributions has been that of Jeremy Waldron in his book, *The Harm in Hate Speech* (2012), a revision of the one ascribed to other social phenomena,

for example, discriminatory practices

THE IMPACT OF FLUENCY AND HESITATION PHENOMENA ...

investigates the impact of fluency and hesitation phenomena on the perception of non-native speakers by native listeners of German The first results

underline the importance and salience of hesitation phenomena and fluency for speech effects and suggest a higher consideration of ...

A Survey of Glossolalia and Related Phenomena in Non ...

ment of its nature in other religions This paper will show that glossolalia and similar speech-phenomena occur in various forms during shamanistic

rites of the New, and especially of the Old, World The Christian tradition of speaking-in-tongues probably had its roots in the ancient religions of Asia

Minor

Normal changes in the speech of older adults. You've still ...

(1975) described the phenomena of holistic speech performance as a system that is affected by "concurrent activity in other speech structures" (p 11) Thus, as we look at changes in the speech of an older adult, and artificially separate voice or articulation for discussion purposes, or

Linguistic Theory, Linguistic Descriptions and the Speech ...

nothing to offer to workers in the other branch, provided, of course, that the latter are descriptively, rather than speculatively oriented. Indeed, many linguists of that type believe that a study of intuitions about, and attitudes towards, the speech-phenomena should be based on a sound, scientific understanding of the phenomena themselves

Disfluencies and Human Speech Transcription Errors

of spontaneous speech, particularly the co-occurrence of errors (or misperceptions) with disfluencies and coarse-grained word classes. The motivation is twofold. First, the analysis of errors can shed light on the function(s) of disfluencies and other spontaneous speech phenomena in ...

Efficient Neural Coding in Auditory and Speech Perception

interestingly, these results may be linked to phenomena in auditory and speech perception. The Relevance of Efficient Neural Coding for Speech Perception. Speech has long been recognized as 'special' [1-6]. We prefer it over other sounds from birth onwards [6], and we are able to make fine-grained discriminations that allow us to convey

Hesitation Phenomena in Spontaneous English Speech

HESITATION PHENOMENA IN ENGLISH: conditioning or learning, where a speaker's choice was highly individual and unexpected, on the other hand, speech was hesitant. Our own findings point to very much the same general conclusion. Lounsbury has discussed hesitation phenomena along highly similar

Neural Modeling of Speech Production - CNS Classes

Neural Modeling of Speech Production. Frank H. GUENTHER^{1,2}. ¹Department of Cognitive and Neural Systems, Boston University, 677 Beacon Street, Boston, MA, USA. ²Research Laboratory of Electronics, Massachusetts Institute of Technology, Cambridge, MA, USA. guenther@cnsbu.edu. Abstract: This paper describes a neural model of speech production and perception-production.

The LENATM Language Environment Analysis System

database of quantifiable adult-child speech phenomena in a natural home environment, known officially as the LENA Natural Language Corpus. The amount of data within this database, and specifically within the iTS files, is vast. Thus, considerable potential for data mining exists.
